

PRO-GLIDE™ SLIDING DOOR

THE EASY-GLIDE, SELF-CLOSING MODULAR SLIDING DOOR

The Pro-Glide™ Sliding Door from Simplex Isolation Systems is the ultimate in elegance and functionality. Available as either a single or double door, the Pro-Glide™ is equipped with an easy-glide track system and self-closing cartridge, which allow for smooth operation. The exclusive self-closing cartridge converts from manual to self-closing in minutes and can be adjusted for speed.

The frame is made from extruded aluminum for strength and weight savings and the sweep seal provides maximum containment. The Pro-Glide™ Sliding Door is an ideal solution for sleek and functional end-of-aisle containment.

FEATURES:

- » All framing comes in standard clear anodized 6063-T5 aluminum. Black anodized framing also available.
- » Door frame is 1" thick x 2" wide custom extrusion with a PVC lock spline.
- » Comes complete with a 2" x 2" door frame with full length flexible magnet seal at the leading edge of the door panel.
- » Clear 1/8" polycarbonate inserts are standard. Additional inserts include: PolySim™, FM4910 and FlexSim™.
- » Includes integrated floor guides, floor cleats, rack attachment brackets and pre-installed seals on the inside edge the 2" x 2" outer frame.
- » Single doors up to four feet wide.
Double doors up to six feet wide.

BENEFITS:

- » No protruding header or track assembly. Nothing to accumulate dust or catch on when walking past.
- » Extra clearance provides more critical room in the data center.
- » Seals keep temperatures stable, offering the data center maximum protection.
- » Door is pre-hung and installs in minutes for quick utilization.

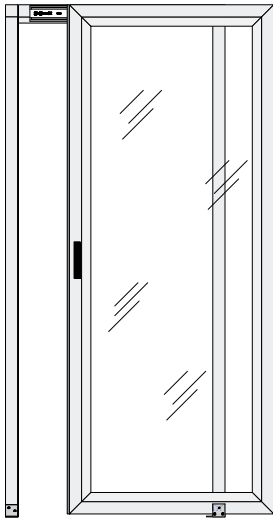

Available as a single or double door in clear or black anodized finish.

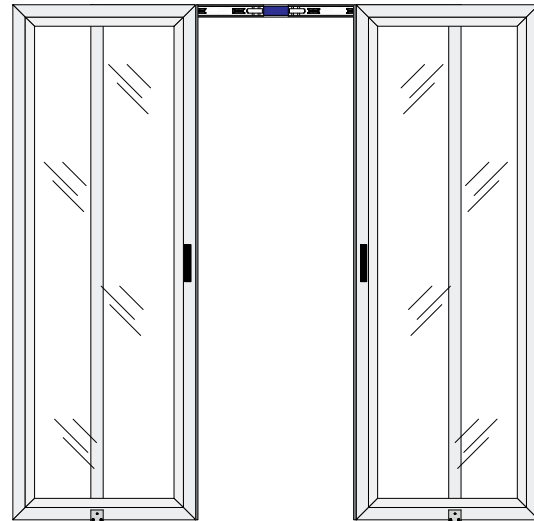

The easy glide track system and self-closing cartridge are integrated into the door so that they are tucked away from view when the door is open or closed.
